DETAILED ACTION

1. The objection to the disclosure, the objection to the specification, the rejection of claims 3 and 4 under 35 USC § 112, first paragraph (enablement) and the rejection of claims 3 and 4 under 35 USC § 112, second paragraph set forth in the previous Office Action (mailed on 02 September 2003) are all withdrawn.

Specification

2. The amendment filed on 17 November 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The paragraph beginning with "In accordance with a preferred embodiment" and ending with "or an insulation of such materials and components" (on pages 3 and 4 of the response) is not supported by the original disclosure and thus, this added material is new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and

Art Unit: 1732

use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 3-5 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In newly-added independent claim 5, the following claimed limitations constitute new matter: step (a), ``generating a structured first layer'' ; step (b), ``covering the filled structured layer with a new layer having a defined thickness'' ; steps (d), (e), (f), (g), (h) and (i), none of these steps are described in the originally-filed specification.

Response to Arguments

5. Applicant's arguments with respect to claims 3-5 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this

Art Unit: 1732

action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
